

Epping Surgery Centre

Celebrating 13 Years Of Care

This year, Epping Surgery Centre (ESC) celebrates 13 years of serving the community with high-quality ophthalmic surgical care. Epping Surgery Centre was established in May 2004 and since then has catered to the surgical needs of **20,637** patients. This year we have continued to grow, and further elevated the standards of ophthalmic care.

ESC's ongoing success is a testament to the continued support of our staff and surgeons. They go above and beyond to cater to the specialized surgical eye care needs of our patients. We are thankful for the Epping Community support in helping us achieve this milestone.

Successful Optometry Conference

Our Sydney facilities, [Epping Surgery Centre](#) and [Chatswood Private Hospital](#) recently held an extremely successful Optometrist Conference on 2 April 2017. We had 138 Optometrists attend and 11 Sponsors, 15 staff and 26 Presenters making a total of 191 attendees. We are extremely proud to see this increase in attendance and look forward to this trend continuing in future events.

We would like to thank our presenters, our sponsors and of course all of the optometrists in attendance for helping make the event a huge success. Attendee feedback was overwhelmingly positive and we already have more educational events planned for the year.
