

Epping Surgery Centre

Epping Relocation Update

Following Council and Community feedback, Epping Surgery Centres (ESC) has re – lodged its development application with Parramatta City Council. The revised plans provide greater set back and landscaping, lessening the bulk and scale and improving the amenity of the day surgery into the local neighbourhood.

The plans provide a house – like structure with the incorporation of a modern, high – tech day surgery centre. Once approval is granted, work will begin in earnest.

PresMed Attends Annual WAEH Conference

In June, Roger Cronin, CEO and Feng Neal, CFO travelled to the USA to partake in the 12th Annual World Association of Eye Hospitals Conference. The World Association of Eye Hospitals Annual Conference was held in Ann Arbor, Michigan at the Kellogg Eye Centre, attended by leaders in eye hospitals from all over the world. Attendees then visited Johns Hopkins Wilmer Eye Institute, Baltimore and The Bascom Palmer Eye Institute in Miami. Lasting from the 6th-12th of June, the conference and hospital visits covered a range of topics in the developments of ophthalmic care.

With nearly 100 attendees, from 20 different countries, the conference was an invaluable opportunity for our management team to bring fresh ideas on ophthalmic care back to Australia.

ESC, Cutting Edge of Technology

Epping Surgery Centre (ESC) is committed to continually research and obtain the latest in cutting edge technology that the Ophthalmic industry has to offer. The hospital has recently purchased the new Johnson & Johnson Signature Pro Phaco Machine.

The Signature Pro Phaco Machine is designed to optimise your process management and inform your technique. The machine delivers a practice-eye-level view with mobile analytics and case insights.

Featured Doctor

[Dr Season Yeung](#)

After completing his ophthalmology training in New Zealand under the Royal Australian and New Zealand College of Ophthalmologists (RANZCO), Dr Yeung undertook a cornea, external diseases, anterior segment and refractive surgery fellowship at the University of Ottawa Eye Institute

in Canada, where he had the privilege of collaborating with many world-renowned ophthalmologists in North America.

Dr Yeung is experienced in performing complex cataract surgery, corneal and ocular surface (pterygium) surgery, collagen cross-linking, refractive surgery and intraocular injection. He regularly teaches medical and optometry students, general practitioners, and optometrists. Dr Yeung continues to be involved in both clinical and scientific research, and he has presented at many major international and Australian conferences including the annual meetings of American Academy of Ophthalmology (AAO) and American Society of Cataract and Refractive Surgery (ASCRS), the RANZCO annual scientific congress, and the World Cornea Congress. Furthermore, Dr Yeung has published in many major international peer-reviewed scientific journals as well as a textbook chapter in ocular immunology. [Click Here](#) to read more.
